Abbey, The floodlit **369**
Accessories, 1966 edition of AEI's Electrical Installation **332**
Accessories–development and production, Electrical installation L W SHOREY **247**
Accessories, switches and **280**
Acoustic fault locator, The AEI **128**
Adhesive tape, Black P MAYTUM **107**
Advanced cable–background to development of AEI extruded three-layer dielectric N B HEWETT, D W BIRD **357**
Advanced cable for Ras Tanura 15kV submarine power link to 'sea islands' **353**
Advanced cable–plastics cable manufacture at Gravesend W G DAVIES, W MILLWARD **360**
All in a day's work for Construction Division engineers at Bath **292**
All-piled tower lines in North London **218**
Amendments to IEE Wiring Regulations **98**
ANKERSON W A **253**
Appointments, Cable **204**
Appointments, Cables Group **333**
Appointments, Construction Division **235**
Aspects of earth-fault current in multi-voltage networks A SALZMANN **86**
Arran connected to national grid, The Isle of **58**
AEI acoustic fault locator, The **128**
AEI and road safety **228**
AEI cables laid through seventy-year old cable tunnels in Barcelona **296**
AEI designs in COID Index **303**
AEI design of weatherproof box now in fibreglass **273**
AEI electrical equipment for Dunlop overseas **24**
AEI 15kV butyl cables in Mexico **216**
AEI research into dispersion strengthened lead **281**
AEI synthetic rubber-insulated cables in MEB substation trial **236**
AEI 275kV cables going in **167**

Bankside hydraulic equipment **77**
Barcelona, AEI cables laid through seventy-year old cable tunnels in **296**
Bath, All in a day's work for Construction Division engineers at **292**
Beaney S J **204, 333**
Beavan D B **204**
Better ceiling rose, A **217**
Bevan J **235**
Black adhesive tape P MAYTUM **107**
Bowling down the lane **62**
Braddon R H **333**
Bradford for technical education, 3 400 more places: building in **282**
Braiding, overhead lines and lead **139**
Brighton, The changing face of **334**
BEPC–1963 **16**
BEPC–1964 **154**
BEPC Brighton, Cable Group's cocktail party at the **279**
British Electricity Board's specification for medium-voltage fuseboards for use in indoor substations **149**
British Guiana, Progress in **100**
Buenos Aires is making up lost ground **371**
Burrows R J J **235**
Butyl-insulated Hypalon-sheathed cable connections, Light weight favours **148**
Butyl insulation, Tropical undersea power cable has **31**

Cable appointment: Mr B B Freeman **279**
Cable appointments **204**
Cable Division literature, New **50**
Cable drum, The **38**
Cable Group's cocktail party at the BEPC/Brighton **279**
Cables by AEI **160**
Cables for Nimrod H HADLEY **195**
Cables Group appointments **333**
Calley A **25, 351**
Capeling L F **235**
Catalogue, Jointing materials **13**
Catalogue, 1966 Edition of AEI's 'Electrical Installation Accessories' **332**
Ceiling rose, A better **217**
Chambers A **351**
Changeover at West Thurrock **374**
Changing face of Brighton, The **334**
Chiltonian makes the biscuit **370**
Compound, New pack for improved cold-pouring **262**
Connector box, Versatile **161**
Construction Division appointments **235**
Construction Division's Malaysian unit cables industry **321**
Contractors meet at Folkestone **28**
Control of a new gas plant **82**
COID Index, AEI designs in **303**
Coventry Cathedral Organ, The C T L HARRISON **26**
Cross-bonded cable systems, Single-point bonded and R B HUTSON **311, 364**
Crossing a motorway **159**
Dalston, Stock sales office now at **25**
Day C F **235**
Deptford Creek bridge replaced **138**
Developments and trends in wiring cables B B EVANS **43**
Discriminative fault clearance in medium-voltage networks A SALZMANN **32**
Dispersion strengthened lead, AEI research into **281**
Distribution equipment, New **318**
Double-pole service fuse for split concentric service cable **245**
Dungeness **51**
Dungeness progress **152**
Dunlop overseas, AEI electrical equipment for **24**

Earth-fault current in multi-voltage networks, Aspects of A SALZMANN **86**
Earth monitoring unit **6**
Easy access is a feature of this weatherproof box **54**
Economic supply to 99 flats in Surrey tower block **300**
Edinburgh's impressive new technical college **172**
Electrical accessories hit the road **294**
EDA Exhibition, Switches at the **370**
EIBA helped 2 600 **251**
EIBA short of target last year **124**
Electrical installation accessories – development and production L W SHOREY **247**
'Electrical Installation Accessories', 1966 Edition of AEI's **332**
Estlin K S **204**
Even older irons – result of Solon story invitation **190**
Ewings P R **333**
Expansion in the Malayan Peninsula **210**

Factors affecting the thermal rating of power cables W H LYTHGOE **115**
Fault clearance in medium-voltage networks, Discriminative A SALZMANN **32**
First vertical extrusion plant in Britain **13**
Flack H W **204**
Fleet, Quick work at **316**
Floodlit Abbey, The **369**
Forth Road Bridge **186**
400kV towers go up in North Wales **99**
Freeman B B, Cable appointment **279**
Frost N B **204**
Fuseboards for use in indoor substations, British Electricity Board's specification for medium-voltage **149**

Gas plant, Control of a new 82
General information: twelfth edition 262
Gland design for pole-mounted terminal boxes, New 237
Glossop office in top gear 71
Gravesend, Advanced cable – plastics cable manufacture at W G DAVIES, W MILLWARD 360
Gravesend: modernisation for paper cable manufacture up to 33kV 238
Gravesend, Submarine cable loading at 298
Griffiths S T 235

Have you a Solon story? 162
Harrison T R P 204
Hawley W G 204
Helicopter helps out 295
Hewett N B 204
High crossing over North Circular 272
High-impact plastic conduit installation in Huddersfield 206
High Voltage Laboratory, Woolwich E A SMITH 223
Holland R G 204
Hong Kong's first 132kV oil-filled cable 50
Hong Kong, Summer peak in 325
Hoban H C 204
